Depress switch to cycle through light modes, depress switch for 3 seconds to access commute mode.

BOSS DUAL II light unit is IP65 Waterproof rated.

CAUTION

Boss light is a high brightness output device which can generate a lot of heat in continuous use.

Please read the operating manual and follow the warnings / recommendations carefully for safe usage.

0. BOSS light may become very hot in extended or prolonged usage.

1. DO NOT leave your Boss Light unattended.

2. Keep BOSS Light out of reach of children

3. DO NOT use unapproved rechargeable Li-ion batteries that do not have protective circuits.

4. DO NOT shine BOSS light directly into the eyes of animals or people.

5. Remove batteries for long periods of inactivity or during transportation.

6. Do NOT use petroleum based lubricant on the waterproof 'o-rings' this may cause damage to the 'o-ring' and thus affect waterproofing integrity.

7. Recommendation: clean the cable connection threads every 6 months with a clean cloth and thin coat of silicone based lubricant.
